

MINE DIVIDENDS.

Aggregate of \$114,567,452
Paid in Eleven Months.

COPPER LEADS THEM ALL.

Only Two Hundred Companies Reported—Were the Dividends Paid by Private Enterprises added the Total Would be Prodigious.

The total dividends disbursed by the various companies identified with the mineral industry of the United States in the eleven months ending November 30, as far as reported in the Engineering and Mining Journal, amounted to \$114,567,452, paid by 200 companies. Of the total, the gold, silver, copper, lead, zinc and quicksilver mines contributed \$48,150,942, or 42.5 per cent, while the remaining \$66,416,510, or 57.5 per cent, was paid by the petroleum, coal and coke, iron and steel and other companies.

Were the dividends paid by private corporations, which are not reported, added it would appear that the returns received by capital invested in the mineral industry exceed those of any other industry in this country.

Copper mines paid \$30,439,520, or 62.4 per cent of the total mining dividends. The Amalgamated Copper company paid out \$6,000,000, or 8 per cent on its capital. This was derived from dividends of the companies controlled by it, including the Boston and Montana, which paid \$6,000,000, or 172 per cent per annum on its share capital; Anaconda, \$1,800,000, or 16 per cent per annum, and Parrot, \$1,379,100, or 90 per cent. The Calumet and Hecla in Michigan paid \$5,000,000, or 200 per cent per annum on its capital stock. The Quincy, also of Michigan, paid \$800,000, or 36 per cent on its capital stock of \$2,200,000.

Gold and silver mines are credited with paying \$14,292,200, or 29.3 per cent of the total. Stratton's Independence, limited, of Cripple Creek, paid \$1,787,337, or 10 per cent per annum on its capital, while Portland, in the same district paid \$750,000, or 25 per cent per annum. Homestake, of South Dakota, paid \$1,155,000, or 6 per cent per annum, and Silver King, of Utah, \$825,000, or 30 per cent per annum. Lead and zinc mines paid \$772,387, or 7.8 per cent of the total mining dividends. California quicksilver mines paid \$201,500.

The American Smelting & Refining company paid \$2,113,803, or at the rate 7 per cent on its preferred stock, the National Lead company, \$782,640, or 7 per cent on the preferred and \$149,034, or 1 per cent on the common stock. Petroleum companies paid \$37,707,947, or 32.9 per cent of the total dividends. Of this amount the Standard Oil company paid \$17,650,000, or 48 per cent per annum on its outstanding capital stock. The remaining \$20,057,947 were paid by independent California and West Virginia companies.

Under iron and steel only these concerns are noted that are producing their own raw material. These paid \$20,110,623, or 17.6 per cent of the total. The largest payer was the Federal Steel company, with \$5,059,794, or 6 per cent per annum on the preferred stock, and \$1,743,162, or 31 per cent on the common.

American Steel and Wire is next, with \$2,800,000 on the preferred and \$2,655,000 on the common; both at the rate of 8 per cent per annum. Republic Iron and Steel paid \$1,421,483, or 7 per cent on the preferred stock, and National Steel, \$1,417,500, or 7 per cent on preferred. The Tennessee Coal, Iron and Railroad company paid \$902,144 on common and \$148,840 on preferred stock.

Coal and coke companies paid \$3,171,766, or 4.5 per cent of the total. The Pittsburg Coal company paid \$2,240,000, or 7 per cent on its preferred stock, and the Pennsylvania Coal company \$800,000, or 16 per cent per annum.

Miscellaneous companies paid \$2,826,174, or 2.5 per cent of the total dividends. The leading payers in this class were the American Agricultural Chemical company, \$1,020,000, or 6 per cent on preferred stock; the Virginia-Carolina Chemical company, \$800,000, or 16 per cent on preferred; and \$270,000, or 4 per cent on common; the National Salt company, \$300,000, or 7 per cent on preferred, and \$140,000, or 34 per cent on common; Pacific Coast Borax company, \$220,000, or 12 per cent on its capital.—New York Journal.

No one can reasonably hope for good health unless his bowels move once each day. When this is not attended to disorders of the stomach arise, biliousness, headache, dyspepsia and piles soon follow. If you wish to avoid these ailments keep your bowels regular by taking Chamberlain's stomach and liver tablets when required. They are so easy to take and mild and gentle in effect. Work of the Geological Survey in Arizona.

E. M. Douglas of the United States geological survey was here yesterday purchasing supplies says the El Paso Times of Dec. 12. He has just come from Arizona where he has been for two weeks inspecting some topographic surveys around the mining camps.

The points where the most of the work is being carried on are Globe, Clifton and Prescott.

Mr. Douglas says that this work is soon to be followed by geological surveys. "It has been the custom of the government to help develop the mining resources of the states," said Mr. Douglas, "and similar work has been done in Butte, Cripple Creek and all the mining sections of Utah, Nevada and California."

In the opinion of Mr. Douglas Arizona is at present an especially important mining country on account of the great demand for copper.

Tortured a Witness.

Intense suffering was endured by witness T. L. Martin of Dixie, Ky., before he gave this evidence: "I coughed every night until my throat was nearly raw; then tried Dr. King's new discovery which gave instant relief. I have used it in my family for four years and recommend it as the greatest remedy for coughs, colds and all throat, chest and lung troubles. It will stop the worst cough, and not only prevents but absolutely cures consumption. Price 50 c and \$1. Every bottle guaranteed. Trial bottles free at Globe drug store.

Senate Confirmation.

Washington, Dec. 11.—The following confirmations were made by the senate today:

Huntington Wilson, of Illinois, to be secretary of the legation of the United States to Japan.

William D. Bynum, of Indiana, to be commissioner to revise and codify the criminal and penal laws of the United States.

Daniel H. McMillan, of New York, to be associate justice of the supreme court of New Mexico.

To be major generals: Brigadier General Lloyd Wheaton and Brigadier General A. Chaffee, United States volunteers.

How to Cure Croup.

Mr. R. Gray who lives near America, Dutchess county, N. Y., says, "Chamberlain's cough remedy is the best medicine I have ever used. It is a fine children's remedy for croup and never fails to cure." When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. This should be borne in mind and a bottle of the cough remedy kept on hand ready for instant use as soon as these symptoms appear. For sale by H C Hitchcock.

Arizona and Statedhood.

Mr. Chas. C. Randolph, for the past four years editor and proprietor of the Arizona Republican, a newspaper in Phoenix, Ariz., and formerly a Washington correspondent, has returned to the city. "The territory of Arizona most certainly deserves statehood," said Mr. Randolph, at the Raleigh last evening. "It now contains more people than either Wyoming or Montana had when those two territories were admitted to the union, so that there can be no reasonable objection to admission on the ground that Arizona lacks in population. The population of the territory is now 122,000, a gain of 65,000 in ten years. It appears that there is a certain class of republicans in the territory who are opposed to statehood. Included in that class are many of the office holders of the territory, who, while ostensibly favoring statehood, are secretly opposed to it, and are working to the latter end.

"The territory is now opening up quite generally. Notwithstanding a great drought, which has prevailed during the past year in the Salt river valley, the chief agricultural region of the territory, that section is prospering. A great deal of the orange producing section is being developed. The Arizona orange is sweeter and superior in other respects to the California product, and it is harvested two weeks in advance of the more western product, so that there is a great field for Arizona oranges throughout the country. The mineral resources of the territory are virtually without limit. Copper and gold are the leaders in production. The territory contains one of the largest copper mines in the world. The dry atmosphere of the country makes it also an especially salubrious region, people suffering from pulmonary troubles finding it possessed of great curative qualities. Its future is bright, and statehood would work wonders in increasing its development."—Washington (D. C.) Post.

World's Champion.

"I tried many remedies to cure piles," writes W. R. Smith, of Latham Ill., "but found no relief till I used Bucklen's arnica ointment. I have not been troubled with piles since. It's the only ointment I can use on the earth and the best in the world. 25c per box, guaranteed by Globe drug store.

The United Verde.

The American Mining News publishes the following concerning the United Verde Copper company's mines at Jerome:

The great United Verde, largely owned by W. A. Clark of Montana, was first a gold and silver mine, but at about 160 feet from the surface, copper sulphides came in and for the next 400 feet, it is said, there has been taken enough ore values to give to the stockholders \$14,000,000 in dividends, leaving \$16,000,000 in the treasury, and leaving a block of ore underneath the smelting works which cannot be moved, but which is estimated to contain \$14,000,000 more. Nothing of moment has yet been taken out below the 600 foot level, but at this point the mine has opened a vein of ore 1,300 feet long, estimated to be from 600 to 800 feet wide, carrying 10 per cent copper.

The vein has been penetrated with a diamond drill to a depth of 1,600 feet from the surface without finding any variation in the richness of the ore. The vein has a dip of about 72 feet horizontal, making it very nearly vertical intruding upon this vein of copper sulphide ore is a quartzite dyke 70 feet wide, carrying 1 per cent of copper with from 2 to 13 ounces in gold.

This quartzite is used for lining the furnaces and the gold thus impregnates the copper and is extracted to such an extent that the entire copper production is clear profit, making it one of the most profitable copper mines in the world. The mine produces 80 tons of copper per day, the highest day's record being 105 tons, and an average of 48,000,000 pounds per annum.

Dividends on this mine began in 1892 at the rate of 25 cents per month. In 1896 they were again doubled and in 1899 \$1 per share per month was paid or \$12 per share per year on the \$3,000,000 capital stock, and the dividends for the present year are \$1.50 per share per month.

In addition to the \$3,000,000 paid last year, which was \$600,000 more than the entire capital stock of the company, the net earnings are believed to have been \$5,000,000 and the company is said to be earning more than \$10,000,000 per annum at the present price of copper.

Christmas goods arriving daily in carload lots. Full line of choicest groceries, gent's furnishing goods, underwear, hosiery, fancy toilet articles, manicure sets, carpetings, rugs, art squares, new lines of shirtings.

MAJOR CONVERSE DEAD.

ARLINGTON, Tex., Dec. 11.—Major Jas. Converse, widely known throughout the southwest, died here today, aged 71 years. He built the southern Pacific railroad through Texas.

There is no pleasure in life if you dread going to the table to eat and can't rest at night on account of account of indigestion. Henry Williams of Booneville, Ind., says he suffered that way for years till he commenced the use of Kodol dyspepsia cure, and adds, "Now I can eat anything I like and all I want and sleep soundly every night." Kodol dyspepsia cure will digest what you eat. H C Hitchcock.

Most Expensive Road on Earth.

The length of the Speedway is two and one-fifth miles, and its cost, not counting the land values, was between \$3,000,000 and \$4,000,000. Think of a driveway costing more than \$1,500,000 a mile. Never before in the history of the world was such a thing heard of—not even in the halcyon days of ancient Rome, when road building was a feat of emperors and deities. Labor was so cheap then that no account was taken of its cost. Some of the Roman roads have stood the traffic of 2,000 years, and some highways in China that of an even longer period. The reason why China is so backward in railroad building is that her wagon roads are so fine. The Appian Way, from Rome to Brundisium, a distance of 320 miles, is the most celebrated road in the world, and must have cost a vast sum, as rocks had to be cut through, valleys filled up, ravines bridged and swamps embanked. But nothing like \$1,500,000 a mile; oh, no.—New York Press.

Wall paper from cheap prints to the finest gilt, embossed and engrain. The only place in town where you can get the celebrated Renown 5c cigar, also all the leading brands of cigars from 5c up to 50c each. The News Depot.

DeWitt's witch hazel salve will quickly heal the worst burns and scalds and not leave a scar. It can be applied to cuts and raw surfaces with prompt and soothing effect. Use it for piles and skin diseases. Beware of worthless counterfeits. H C Hitchcock.

WE PAY THE FREIGHT—Todd & Dunlap, of Safford, who have one of the largest stocks of furniture in Arizona, will prepay the freight to Globe on every purchase from them by a Globe citizen to the amount of fifteen dollars or over. Bottom prices. See catalogue and price list at office of Knight Parker. TODD & DUNLAP.

Best.

The "Best" was a prize winner at the Graham county fair. When ordering flour ask for the "Best." Handled by all grocers.

THE COSILY TRANSVAAL WAR.

LONDON, Dec. 11.—The house of commons today voted £16,000,000 to carry on the war which Lord Roberts has daily announced as "finished," as the full scale cost for another three months, in the listless manner characteristic with its dealings with financial questions and careful avoidance of what might turn out to be unjustifiable hopefulness. Brodricks speech was rather gloomy and pessimistic. His debut as secretary of state for war was unengaging, if not disappointing, but the house, apathetic, after the exciting debates of Monday, and like the nation, tired of war, was in no mood for severe criticism. Otherwise the fact that not even the volunteers could be spared to come home and other matters in Brodricks' statements would have given a chance for lively discussions.

The Kentucky Liquor Store handles straight Kentucky whiskey, bottled goods a specialty. Family trade solicited, goods delivered. Telephone No. 13.
